SycliQ ™
cyclic data insights

We build systems for 'Crop*' life cycle Intelligence

*metaphor

Geoanalytical Engine for Internet of Things
A Typical Agribusiness Scenario

cyclic data insights for agribusiness market segment

SUITABILITY/RECON

Climate Modeling to identify best fit crop

Digitize farm

Farm Assessment & Suitability

Establish baseline Conditions

Install

Hyper-local sensing platform

Real-time data streams

alerts & messaging

30
October
10:45 AM

Monitoring Solutions

Autonomous scouting bots

Intelligent Acquisition & Analysis

Mobile Dashboard
Web Dashboard
(Predictive Analytics and Scenario)

Connected Infrastructure

Farm Internet of Everything

Commodity Market Place

Real-time markets connect

Pre-sourcing Nutrition Sensing Device

geographic indicators

Real time produce health monitoring in logistics

Preparation for new life cycle

Seed Aquisition

Farm prep

Crop Life Cycle Analysis

KPI Comparative Metrics

geographic suitability knowledge base

Retail Nutrition sensing device

geographic purchasing trends

providing end to end solution along the value chain

Hyper-local Sensing Platforms
patent pending

U-probe

Aqua probe
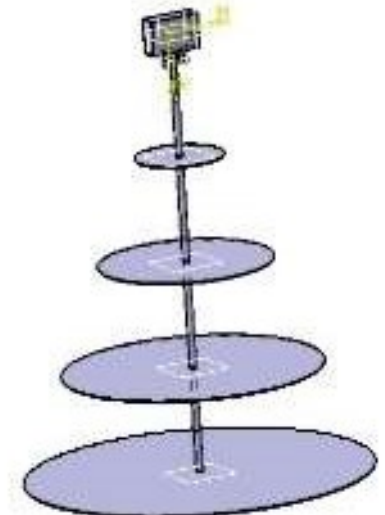

Hydroponic

PRICING

BASIC	PROFESSIONAL	ADVANCED
Basic hyper-local sensing platform	Professional hyper-local sensing platform	Advanced hyper-local sensing platform
Mobile Dashboard	Mobile Dashboard	Mobile Dashboard
Predictive Analytic Platform	Predictive Analytic Platform	Predictive Analytic Platform
$1500 USD	$2000 USD	$3000 USD
